

Why should we preserve our locality?

Woodchester Endowed Church of England (VA) Primary School

Key Questions:

What makes a building/site special?
Should all listed buildings be preserved?
Can we find a listed building of the future?
Why should we preserve our locality?

What should I already know?

Locality means within our local area – we are focusing on Stroud, Gloucestershire.
There are a range of buildings in our local area, some new, some old, and some have historical significance.

Key Facts and Reflections

Lesson 1

To understand what makes a building special.

There are lots of historical buildings close to school and where we live.
Not all of them look the same as they used to.

Lesson 2

To know what it means for a building to be listed and why this might happen.

Listed means protected by law.
It's not just buildings – Stones in Scotland have been listed.

Lesson 3

We looked again at local buildings and thought about why they might be listed.

Lesson 4 and 5

To identify local buildings to protect.

We found lots of features in our school which help us learn about its past.
Not everyone noticed the same things. We did a gallery walk to find different viewpoints.
